# About this Guide

This document describes changes made to Knova for v8.2.4.10 release and other important information before installing and upgrading to Knova for v8.2.4.10, including:

- [Test Environment](#)
- [Feature Enhancements](#)
- [Defects Fixed](#)
- [Known Issues](#)
- [Modified Files](#)
- [Folder Hierarchy](#)
- [Notes](#)
- [Documentation Set](#)

---

# Test Environment

See the *System Requirements* document for complete details on supported and tested environments. Below are the changes:

- Databases
  - SQL Server Version: Microsoft SQL Server 2016
  - Oracle Version: Oracle 12C R1
- Tomcat Version: 8.5.15
- JDK Version: 1.8.0\_131
- Apache Solr: 6.3.0
- WildFly: 9.0.2
- Operating System
  - Windows Server 2016 Standard
- Analytics
  - QlikView Enterprise 12.10 SR4 (64-bit edition)

---

# Feature Enhancements

Knova v8.2.4.10 is a maintenance release and no enhancements were added.

KNOV-8041	Microsites and Pagelets	Hot topics doesn't work when sort by published date

---

# Known issues

When using this version of Knova, you or your users may encounter the following known issues.

**Note:** The lists of known issues contain information to raise your awareness and suggest solution or workarounds.

---

## Administrator

Category	Description
Installer	Even when the installer fails, the database setup completes successfully and retribution hangs.

## Knowledge Central

Category	Description
Content Editor	On Edge and Chrome browsers, indexed attachments are downloaded twice when opened through content editor.
Content Editor	In content editor, if a Japanese character is typed in the title name and the window is maximized, a close confirmation message is displayed.
Content Editor	If an indexed attachment has a special character in the file name, and this attachment is attempted to be linked to a document, a close confirmation message is displayed.
Content Editor	On Edge browser during an attachment upload, the progress bar for upload does not work.
Content Editor	For attachment upload, you may experience issues with large attachments on browsers other than Chrome. It is recommended to use Chrome for the best user experience.
Content Editor	When using the <b>Add Knowledge Base Document Link</b> option to add an indexed attachment that has special characters in the title, the following message is displayed. <b>The webpage you are viewing is trying to close the window.</b>
Content Editor	In content editor, if an image and an .swf file are placed without adding a space in between, the alignment is not proper when the document is viewed.
Content Editor	When using the <b>Add Knowledgebase content</b> option to insert content in to a document, the attachments of the inserted document do not open.
Content Editor	In a single session, creating a second language edition after removing the first language edition, removes the second language edition from the list.

Category	Description
Content Editor	While using the language edition option, closing the child window closes the parent window.
Microsite	When an indexed attachment is opened from Hot Topics and the <b>Up to Search</b> button is used to go back, the order of documents under Hot Topics is changed.
Content Editor	If there is a file upload error when trying to upload a large attachment, all the content in the content editor window is erased when the <b>Attachment Editor</b> window is closed. It is recommended to use Chrome for the best user experience.
Single sign-on	When using Single Sign-On with the URL method: - The header is missing on all URLs, except the Home page. - Double banners are seen for the following URL. <code>http://&lt;Server Name&gt;:8080/knowledgecentral?userid=admin</code>
Document View	The Feedback window is able to be moved outside the boundaries of a page.
Content Manager	File name is blank when performing Export to Excel for Japanese language.
Microsite	When the user profile is edited and saved in Profile Editor, the number of saved Communities under My Favorites doubles.
Single sign-on	For some URLs, when using Single Sign-On with the SAML method, the user is redirected to home page of Knova Knowledge Central instead of the specified URL. For example, this happens with Document View, Favorites, etc.
Content Manager	With HTTPS, the Print List button does not work in Life Cycle Manager.
Content Editor	On the Edit Document window, when the New Notes section is expanded, the window keeps blinking.

## Self-Service

Category	Description
Login	During a password reset, if the user leaves at least one field blank and clicks <b>Submit</b> , an invalid URL message is displayed instead of an error message.
Login	During a password reset, if the user provides the existing password as the new password, the password is accepted.
Communities	When creating a post, on the <b>Preview and Submit</b> page, attachments containing special characters cannot be opened. The following message is displayed: "Webpage cannot be found"

Category	Description
Microsite	On Internet Explorer, the language of the current Microsite page in Self-Service is applied as the Knova application's language after the user logs out and logs in without closing the browser window.

## Platform

Category	Description
Not applicable	Spell check for Japanese is not functional.
Not applicable	Unicode characters are not supported for document ID of KSM documents and indexed attachments. If unicode characters are present, the characters are converted to alphanumeric.

## New files

No files were added in 8.2.4.10.

---

# Folder Hierarchy

The items in this software release package are available from the Knova FTP Server as follows:

## Root Directory

Contains the following:

- **Database Setup** folder
- **Documentation** folder
- **Application** folder
- **ReadMe.html**

## Database Setup folder

Contains AnalyticsDB and ApplicationDB folders. These folders contain the batch files and database scripts required for manually creating or updating Analytics database and manually creating or updating Knova Application database to version 8.2.4.

## Documentation folder

Contains the following:

- Avolin\_Analytics\_Installation\_Guide.pdf
- Knova\_Administrator's\_Guide\_8.2.4.pdf
- Knova\_Analytics\_Guide\_8.2.4.pdf
- Knova\_Communities\_Moderator's\_Guide\_8.2.4.pdf
- Knova\_Data\_Dictionary\_8.2.4.pdf
- Knova\_Installation\_Guide\_8.2.4.pdf
- Knova\_System\_Integration\_Guide\_8.2.4.pdf
- Knova\_System\_Performance\_Guide\_8.2.4.pdf
- Knova\_Knowledge\_Central\_User's\_Guide\_8.2.4.pdf
- Knova\_Release\_Notes\_8.2.4.5.pdf
- Knova\_Self-Service\_User's\_Guide\_8.2.4.pdf
- Knova\_System\_Requirements\_8.2.4.pdf
- Knova\_Web\_Designer's\_Guide\_8.2.4.pdf

---

### Application folder

Contains the `setup.exe` to upgrade Knova from 8.2.1 to 8.2.4.

## Notes

This version also contains all previous fixes released from v8.2.4.1 to v8.2.4.9.

Post deployment of v8.2.4.10, all custom stylesheets should include the changes.

Re-contribution of all documents is needed to apply new stylesheet.

## Documentation set

The Knova 8.2.4 documentation set includes the following guides and help systems; all PDF files are included in the release package on [Avolin Connect](#):

Document	Format
Avolin Analytics Installation Guide	PDF
Knova Administrator's Guide	WebHelp PDF
Knova Analytics Guide	PDF
Knova Communities Moderator's Guide	WebHelp PDF
Knova Data Dictionary	PDF
Knova Installation Guide	PDF
Knova Knowledge Central User's Guide	WebHelp PDF
Knova System Integration Guide	PDF
KnovaPerformance Guide	PDF
Knova Self-Service User's Guide	WebHelp PDF
Knova System Requirements	PDF
Knova Web Designer's Guide	PDF
Knova Release Notes (this document)	PDF
